COMPANY DATA:

Established in 2017, Evelyn's Food Love is your go-to food partner providing "better-for-you" foods prepared from scratch using fresh ingredients. We specialize in American comfort foods with regional and international influences. Our crawfish, shrimp & grits is a fan favorite! As are our traditional, southern recipes such as braised collards and cabbage. Our "Love" rubs, spices and sauces are made in-house, in small batches and add layers of preservative-free flavors to our dishes. We are well-versed in combining the best techniques from southern cooking and combining those techniques with classical culinary training. This is how we create flavor-filled twists on everything we prepare. Our tagline: "You'd Better Have Some!" says it all!
